FUND FACTS
DATA UPDATED JUNE 30, 2026

Strategy

The Tandem Moderate Aggressive Fund favors investors with the capacity to ride out volatility and variations in return to obtain long-term growth of capital. This allocation involves more risk, but not as much as a fund invested only in equities. With a balance of 80% of assets in equities and 20% of assets in fixed income and money market securities, this fund is suitable for investors who:

- Have a long-term timeframe or a moderate aggressive level of risk
- Seek capital appreciation with a bias towards growth
- Seek long-term growth with ability to withstand market fluctuations

Process vs. Benchmark

Tandem's risk-based portfolios are heavily US-centric, with over 80% of equities invested in large, mid, and small-cap US companies. By comparison, Morningstar's risk-based multi-asset indexes allocate roughly 60% of equities to US companies, with the remainder in international stocks, which can lead to significant return differences in any given year. Over the long term, Tandem expects US companies to outperform global peers due to stronger growth prospects over a market cycle.

Disclosures

The investment strategy used in the Tandem Moderate Aggressive Fund has also been used in a separate investment vehicle called the Tandem Moderate Aggressive Portfolio since 2011. Performance shown represents different products that employ the same strategy, blending Tandem Moderate Aggressive Portfolio performance before January 1, 2021 with Tandem Moderate Aggressive Fund performance after January 1, 2021. The blended strategy performance provides additional information on how the strategy used in the Tandem Moderate Aggressive Fund has performed historically. Tandem Moderate Aggressive Portfolio and Tandem Moderate Aggressive Fund performance may differ due to fees. The blended performance does not necessarily represent what investor returns would have been using the Tandem Moderate Aggressive Fund.

Information presented is for educational and informational purposes. Investments involve risk, such as the loss of principal, and are not guaranteed. Additional information on and disclosures from Tandem are contained in the firm's ADV Brochure Part 2A, which is available upon request as well as online at https://adviserinfo.sec.gov/. When fulfilling the role of designated investment manager, fees are fully disclosed in accordance to ERISA 408(b)(2) and ERISA 404(a)(5) published guidelines. Performance is net of fee. Cash includes money market funds, bank deposits, and other cash-equivalent instruments. Tandem selects between available cash investments based on credit quality, FDIC insurance, yield, expense ratio, and other factors. Cash investments may vary based on custodian and availability.

The Tandem Moderate Aggressive Fund uses the Morningstar Moderate Aggressive Target Risk TR USD ("Moderate Aggressive Target") as its benchmark. The Moderate Aggressive Target is a broadly diversified index that uses a portfolio asset allocation of Morningstar constituent indices (stocks, bonds and cash) to maintain a target level of equity exposure of 70%. The Moderate Aggressive Target is reconstituted annually and rebalanced quarterly.

Risk Associated with Investing in the Tandem Collective Funds

No investment strategy to include asset allocation and diversification protects against loss and/or volatility. There is no guarantee that this or any other investment strategy will perform well during adverse market conditions nor be suitable for every investor. Actual outcomes may vary. Past performance does not guarantee future results. The investment return and principal value of any investment may fluctuate, and an investor's shares may be worth more or less than the original cost at any given time or upon redemption. Before investing, investors should consider the investment objectives, expenses, and risks of a fund on their own or with the help of an investment professional.
