Tandem Moderate Conservative Fund® – Institutional Class

CUSIP 19421F396

FUND FACTS
DATA UPDATED JUNE 30, 2026

Strategy

The Tandem Moderate Conservative Fund seeks to protect a larger portion of the fund's value, while taking on some risk with equity exposure for inflation protection. While still holding a portion of its assets in equities, a higher percentage in fixed income dampens short-term volatility, foregoing higher long-term returns for stability. With a balance of 40% of assets in equities and 60% of assets in fixed income and money market securities, this fund is suitable for investors who:

- Have a short-to-intermediate timeframe or a moderate conservative level of risk
- Seek stable returns with capital appreciation
- Seek some opportunity to increase the value of investments

Process vs. Benchmark

Tandem's risk-based portfolios are heavily US-centric, with over 80% of equities invested in large, mid, and small-cap US companies. By comparison, Morningstar's risk-based multi-asset indexes allocate roughly 60% of equities to US companies, with the remainder in international stocks, which can lead to significant return differences in any given year. Over the long term, Tandem expects US companies to outperform global peers due to stronger growth prospects over a market cycle.

Disclosures

The investment strategy used in the Tandem Moderate Conservative Fund has also been used in a separate investment vehicle called the Tandem Moderate Conservative Portfolio since 2011. Performance shown represents different products that employ the same strategy, blending Tandem Moderate Conservative Portfolio performance before January 1, 2021 with Tandem Moderate Conservative Fund performance after January 1, 2021. The blended strategy performance provides additional information on how the strategy used in the Tandem Moderate Conservative Fund has performed historically. Tandem Moderate Conservative Portfolio and Tandem Moderate Conservative Fund performance may differ due to fees. The blended performance does not necessarily represent what investor returns would have been using the Tandem Moderate Conservative Fund.

Information presented is for educational and informational purposes. Investments involve risk, such as the loss of principal, and are not guaranteed. Additional information on and disclosures from Tandem are contained in the firm's ADV Brochure Part 2A, which is available upon request as well as online at https://adviserinfo.sec.gov/. When fulfilling the role of designated investment manager, fees are fully disclosed in accordance to ERISA 408(b)(2) and ERISA 404(a)(5) published guidelines. Performance is net of fee. Cash includes money market funds, bank deposits, and other cash-equivalent instruments. Tandem selects between available cash investments based on credit quality, FDIC insurance, yield, expense ratio, and other factors. Cash investments may vary based on custodian and availability.

The Tandem Moderate Conservative Fund uses the Morningstar Moderate Conservative Target Risk TR USD ("Moderate Conservative Target") as its benchmark. The Moderate Conservative Target is a broadly diversified index that uses a portfolio asset allocation of Morningstar constituent indices (stocks, bonds and cash) to maintain a target level of equity exposure of 40%. The Moderate Conservative Target is reconstituted annually and rebalanced quarterly.

Risk Associated with Investing in the Tandem Collective Funds

No investment strategy to include asset allocation and diversification protects against loss and/or volatility. There is no guarantee that this or any other investment strategy will perform well during adverse market conditions nor be suitable for every investor. Actual outcomes may vary. Past performance does not guarantee future results. The investment return and principal value of any investment may fluctuate, and an investor's shares may be worth more or less than the original cost at any given time or upon redemption. Before investing, investors should consider the investment objectives, expenses, and risks of a fund on their own or with the help of an investment professional.

This summary is neither investment advice nor a recommendation to purchase or sell any security. Information presented is believed to be reliable; however, its accuracy cannot be guaranteed. Any opinions expressed herein are given in good faith, are subject to change without notice, and are only current as of the stated date of their issue. Performance data quoted represents past performance based on a specific period of time without guarantee of future results. Data is updated monthly, quarterly and annually. Current returns may be either higher or lower.
